Zephyr Cove | **https://zephyrcove.org/**

Summary: Shopify store connected with Printify with art and copy written and generated by AI models. Good cause: For each item sold, a dollar is donated to plant a tree or remove a pound of trash from the ocean.
Role: Sole author
Tools: Shopify, Domain, Email Marketing, Printify, Product design, AI, Image Generation, AI Upscale, AI background remover

EXPERIENCE

IT/Sales Trainer
04/2022-Present
Cannablue - Bay Area   **Oakland, CA**
Trained new employees for driver and sales positions, managed promotions on cannablue.com (using Dutchie) and website maintenance. Developed inventory cycle counts.

- Managed teams of up to 7 drivers via Slack while also taking phone and third party orders while checking customers ID for compliance.
- Trained 5 new employees to be drivers and sales reps.
- Learned our POS Software Blaze, managed our website provider Dutchie and updated POS integrations with our third party order service Weedmaps with compliance and functionality in mind.
- Performed inventory counts and reconciled items on our POS to reflect actual quantities and stay compliant.
- Wrote 3 different SOPs for managerial level tasks: one for intaking new product on our POS, auditing delivery driver's boxes, and lastly an inventory cycle count SOP. Our current managers learned using these instructions.

EDUCATION

Certificate in Full Stack Web Development (Coding Bootcamp)
University of Berkeley Extension   **Berkeley, CA**

Bilingual Spanish-English High School Degree (Mechanic/Electronic Technician)
ITPA - Instituto Tecnologico Philips Argentina (Philips School)   **Buenos Aires, Argentina**
